

21 June 2017

Dear parents/guardians,

**Re: GCSE Science Revision Guides**

As year 10 students are nearing the end of the academic year, I would like to encourage them to take some time over the summer holiday period to review the science topics that they have covered this year and to prepare for their final GCSE year. Many of our outgoing students bought revision guides to support their home study. The current year 10 students are undertaking a new Science curriculum and as such the old guides do not cover all of the content for next year's examinations.

I have discussed this with the students and have reviewed some of the new revision guides with them. I would now like to offer their preferred revision guides and workbooks for purchase through the school at cost price. I have suggested that they may wish to share answer books.

Whether the students are taking Double or Triple Award Science there are a number of books that can be purchased to support their revision. These are outlined on the order form attached.

**All GCSE students**

In addition to the science revision guide, we are able to purchase scientific calculators and sell these to the pupils at cost price. A scientific calculator is an essential piece of equipment for homework and examinations, in both science and mathematics.

The cost of the Textet Albert 2 Scientific Calculator is £4.00

Should you wish to purchase any of the books or the calculator, please could you complete the order slip and return to the science department or the school office by Friday 30<sup>th</sup> June 2017. I shall be placing another order in September should you wish to spread the cost.

Yours sincerely

Mrs C Wamsley  
Head of Science Department

**GCSE Science Revision Guides and Scientific Calculators**
