

3rd November 2018

Dear Parent / Guardian,

### **Science Revision Guides & Sessions**

In preparation for GCSE's, the Science department are creating an opportunity for pupils to purchase good quality revision guides as recommended by the AQA exam board. There has also been revision sessions taking place after school every Friday with Mrs Thorp, and more will begin after Christmas, with Mr Rajput & Mr Betts.

Year 11 Set 1 pupils will be entered for separate Sciences. They will require separate Biology, Chemistry and Physics Revision guides, priced at £3 each.

Set 2 pupils will be entered for GCSE Trilogy Combined Science, and they will require one revision guide covering all three subjects. These are priced at £5.

I feel it is worth mentioning that purchasing a revision guide cannot take the place of hard work in lessons and is part of independent revision. We believe that these resources should help to structure your child's revision and so support their journey to success.

Please complete the slip below and ensure your child hands it into the office, along with the required monies by Friday 23rd November.

Best Regards

Mrs Thorp  
Head of Faculty
